Languages

- **Spanish**: Native
- **English**: Upper B2 / C1 *(EF SET Certificate – View Certificate)*

Professional Experience

Tita Media (October 2024 - December 2024)

- Developed and updated e-commerce sites on VTEX and WordPress.
- Implemented PHP-based customizations and integrations to enhance e-commerce functionality.
  Note: Contract ended due to the client moving to a different IT provider.

Freelancer (January 2024 - Present)

- Built custom widgets, child themes, and WooCommerce modifications to enhance site performance and security.
- Developed tailored PHP-based solutions in WordPress to meet specific client needs and business logic.
- Built custom React components integrating third-party tools such as Cloudinary (image storage), Firebase Authentication, and Firestore.

Huge (November 2022 - July 2023)

- Built and customized UI components for Google Pay and Google Wallet.
- Managed content through a proprietary CMS.
  Note: Position ended due to a company-wide layoff.

Mill 5 (June 2022 - September 2022)

- Developed and maintained React components for Alyce.
- Refactored JavaScript to TypeScript.

BairesDev (November 2020 - February 2022)

- Modernized legacy codebases, converting vanilla JS to reusable React components with TypeScript.

Globant (June 2017 - May 2020)

- Developed React and Angular applications for various clients, including Avianca and Tribune.

TBWA Colombia (June 2012 - January 2017)

- Led web development projects for major brands, including Chocolates Jet and Grupo Argos.
- Developed and maintained PHP-based web solutions for digital campaigns and interactive websites.
- Integrated WordPress and custom PHP applications to enhance brand engagement.
